DEADLINE

Deadline for the next issue of *Today & Tomorrow*, which will cover the period Feb. 7-20, will be Tuesday, January 27, 11 a.m. Please send your copy to Allen Balderson, News & Public Information Services, 1475-4th Ave., extension 1541 or 2557.

A group of distinguished novelists will present a series of free seminars at UCSF, April 22 to May 27. The series, sponsored by Continuing Education in the Health Sciences, will be held on six Wednesday evenings in Millberry Union, preceded by full sessions with students in the afternoon the same day. There will be an opportunity for the authors to autograph their own books for buyers in the Millberry Union bookstore during the afternoons.

Novelists Tillie Olsen, Thomas Sanchez, Bienvenido Santos, Hisaye Yamamoto, and Al Young will read selections from their works, followed by discussion with a four-person panel of Bay Area humanists and UCSF health scientists.

The series is to be moderated by M. Margaret Clark, professor and chairman, Medical Anthropology.

The goal of the series is to help sensitize health practitioners, through the use of literature, to a culturally diverse society that has similar feelings on illness, health and dying. For further information contact Velma Parness, extension 4728.

NEWS BRIEFS

The second Mary Morrow Prize for Excellence in Scientific Writing will be given in the Spring of 1981. The $500 prize, established by the Department of Medicine and CVRI, is in memory of Mary Morrow whose 24-year career at UCSF centered on helping young scholars and scientists improve their writing skills and prepare papers for publication.

The applicant must have been enrolled as a student, or a predoctoral or postdoctoral scholar (in any department or unit) at the time the work was done.

Manuscripts should be submitted to the Prize Committee, M 1315 before Monday, March 2. For further information call x2013.

The Henry D. Brainerd Memorial Lecture will be held on Tuesday, January 27 in Carr Auditorium at SFGH at 11:30 a.m. Richard K. Root, professor of Medicine and vice chairman of the Department of Medicine at Yale, will present "Infections in the Neutrapenic Patient."

The Brainerd Lectureship honors the late chairman of the UCSF Department of Medicine and chief of Medicine at SFGH, who died in 1969.

The next Tear Gas Classes will be on Wednesday, January 28 and Tuesday, February 3, 5 to 7 p.m. The classes are sponsored by the Rape Prevention Education Program and are free of charge to the campus community. The cannister of tear gas costs $14. Workshops on self defense (women's & men's) also are available. Registration is required for all classes. For further information call x5683.

Central Receiving will be reloacted off campus to the Materiel Management facility at Oyster Point in South San Francisco effective February 2. Their new address will be: Receiving Department, 612 Forbes Boulevard, South San Francisco, CA, 94080. Their extension, 1271, remains the same. The on-campus staging area will be located between HSE and MR-2, under the direction of Tony Melancon (x5907 or x5809). Campus stocking of hazardous materials and compressed gases will remain at LS 101, under the direction of Phil Canevari (x1082).

In addition, the following Hospitals and Clinics departments have relocated: Inpatient Accounts from M 139 to M 140 (x4241), Utilization Review from M 140 to A 34 (x3261). Risk Management and Frank Jacobson remain at M 140 (x1401).

The California Alumni Association Council will be visiting UCSF on Friday and Saturday, January 30 and 31. The council, made up of fifty UC-Berkeley alumni, holds one meeting a year at a UC campus other than Berkeley.

On Friday afternoon, the group will tour the new School of Dentistry building, the Zakheim Frescoes, CRI, CVRI and the Center on Deafness. A reception at University House will follow, plus the San Francisco Chinese Chapter of the Alumni Association will sponsor a dinner at the Four Seas restaurant that evening.

The council meeting will be held on Saturday with Chancellor Sooy giving a presentation on the current activities and goals of UCSF.

The annual Service Award Ceremony is scheduled for Friday, March 27. It will honor employees who have either been at the University for 25 years or who have retired in 1980. In preparation for this ceremony, it is necessary to have all requests for these 1980 awards submitted to the Personnel Office, U 64, as soon as possible.

In addition, departments are reminded that Form 174039 Staff Service Award Request must be filled out for each employee eligible and for each retiring employee at least two months prior to the employee's eligibility or retirement date.

Construction has already begun on restoring and weather-proofing the outside ledges surrounding the HSE and HSW towers. Depending on weather conditions, workmen will be operating air-powered saws and climbing on scaffolds in this area for a total of three months. For further information contact Design and Construction, x3801.

"Nursing and the Political Process," a two-day workshop that will give nurses a greater knowledge of how bills become laws and how to work with legislators, is being offered by Continuing Education in Nursing Monday, February 2, and Wednesday, February 4.

The first day of the workshop, held in Room N 627, will be spent gaining background information. The second day will be a trip to Sacramento to attend health hearings at the State Capitol, tour the Senate and Assembly, and meet legislators and lobbyists. For program information call x1817; registration information, x2894 or x2483.

All investigators are reminded that the National Science Foundation has revised forms for preparing summaries and budgets. To request a revised form, contact the Contracts and Grants Office, 1483-4th Avenue, extension 2977 and ask for the National Science Foundation's Notice No. 85.

The Neuro Special Care Unit, located on the 8th floor of Moffitt (x4916), has been renamed the Neuro Intensive Care Unit in recognition of the skilled intensive care that the nurses in the NICU have provided for their highly acute patients. Head nurse is Jamie Pullos.

Nominations are now being accepted for the thirteenth annual Kaiser Awards for Excellence in Teaching. Three awards of $750 each will be given this year to: a member of the clinical faculty, a member of the full time faculty of a clinical department, and a member of the full time faculty of a basic science department.

The awards, established by the Henry J. Kaiser Family Foundation, are open to any member of the faculty of the School of Medicine who is active in the teaching of undergraduate medical students and/or housestaff. At least one award should go to a nominee whose major teaching effort is at the undergraduate medical student level. Previous Kaiser Award winners are eligible. Winners of the annual student class teaching awards are considered automatically nominated.

Nominations should be sent to: Chairman, Committee on the Kaiser Awards, Dean's Office, School of Medicine, S 224 before February 13, and should include a brief description of the teaching responsibilities of the nominee, information about the effectiveness of presentation and ability to stimulate student interest and self-education, and any other documentation that may be helpful to the committee. Multiple nominations of a single candidate are not required, but supporting letters from students and/or peers are very advantageous.

The week of January 25 has been proclaimed "Child Passenger Safety Week" by Mayor Feinstein. This educational safety campaign, coordinated by the American Trauma Society and the San Francisco Child Passenger Safety Council, will alert the public to the dangers of allowing children to ride in automobiles without "buckling up." In addition, the campaign will make physicians, nurses and other health practitioners aware of this serious problem, and will urge parents to obtain child safety seats and to use them correctly.

According to Thomas K. Hunt, UCSF professor of Surgery and Ambulatory and Community Medicine, and president of the American Trauma Society, automobile accidents are the number one cause of death among children.

Robert H. Herman, associate clinical professor, Medicine. Began at UCSF in May, 1976.

Nominations are being accepted for a research fellows program on "Women and Their Work: Intersections of the Marketplace and the Household." Sponsored by the Center for the Study, Education and Advancement of Women, UC-Berkeley, the program will support visiting and graduate fellows in original research on the dual roles of women in paid and unpaid work.

To be eligible for a visiting fellowship, individuals must have a doctoral degree or equivalent independent research experience and be able to be in residence on the Berkeley campus for a three or six month term. To be eligible for a graduate fellowship, individuals must be doctoral candidates completing a dissertation and accessible to the Berkeley campus. Application deadline is February 15.

For application material and further information contact Gleoria Bradley-Sapp, Research Program Coordinator, Center for the Study, Education and Advancement of Women, Building T-9, Room 112, UC-Berkeley, 94720, or call 8-582-4786.

Assemblyman John Vasconcellos is among the scheduled speakers at the first annual symposium on Support Services for Parenting which will be held on Saturday, February 7 at the Unitarian Center, 1187 Franklin Street. The symposium, sponsored by Continuing Education in the Health Sciences and the Zellerbach Family Fund, will address pressing questions on how and why we offer support services to foster parenting and will give participants an opportunity to learn new approaches to providing these services and promoting institutional changes.

Other speakers include: Ramona Mercer, associate professor, Family Health and Community Nursing; Patricia Kelly, assistant research geneticist, Epidemiology and International Health; and Delmer Pascoe, clinical professor, Pediatrics and Family and Community Medicine. For further information call x2894.
